

Hello.
I Am
Javi
Bañasco

Theater director
Assistant

About Me :

I studied Direction and Drama at the Institut del Teatre de Barcelona (2011-2016). Also I was trained as an actor at the Nancy Tuñón School. I am a director-dramaturgist particularly interested in two spheres, the visual gag and the dialogue between the different physical-visual disciplines. I have directed and assisted in several shows, both visual and text.

Assisting

Directing

Working as an assistant director has allowed me to collaborate with great directors and choreographers (Roberto Romei, Andrés Corchero or Josep Maria Mestres) or with companies with internationals and long trajectories such as Yllana.

I consider that the figure of the assistant director in a theatrical staging is vital and not only allows the director to execute his functions, but also he must organize the rest of the team. Being an organized and disciplined person, I enjoy generating work plans and optimizing budgets and times.s

I am interested in staging which generates universally understandable situations, ones that connect equally with both adult and children. In order to achieve this, I try to overcome language barriers through various communicative techniques and by changing words for music, onomatopoeia, movement, mime and great doses of good humor.

In short, I want my staging to be extroverted, funny and brilliant, as I consider that entertainment is theater's ultimate goal, even when trying a deep subject or telling a sad story.
